

Barracuda Message Archiver install and use guide for iOS

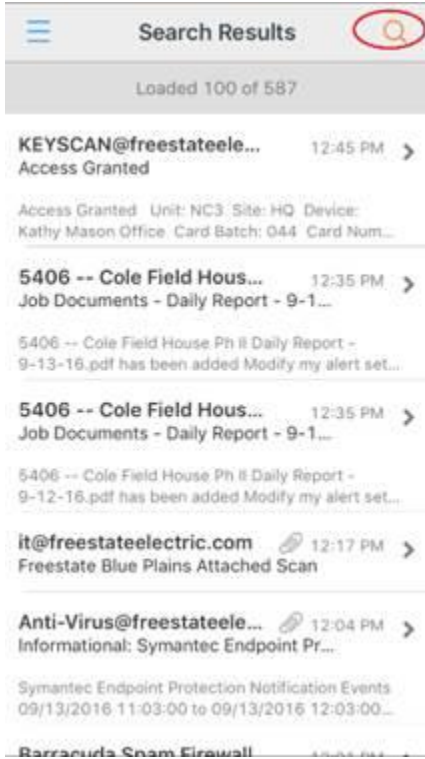

1. Open the App Store on the iPhone or iPad and type "barracuda archive search". When it comes up with the program, tap on +GET
2. Then tap Install
3. The file will then download and install to your device. After the installation is complete tap on +OPEN

4. Input your email address and network password. Then put bma.freestateelectric.com in the Host field and 443 in the Port field. Then tap Login

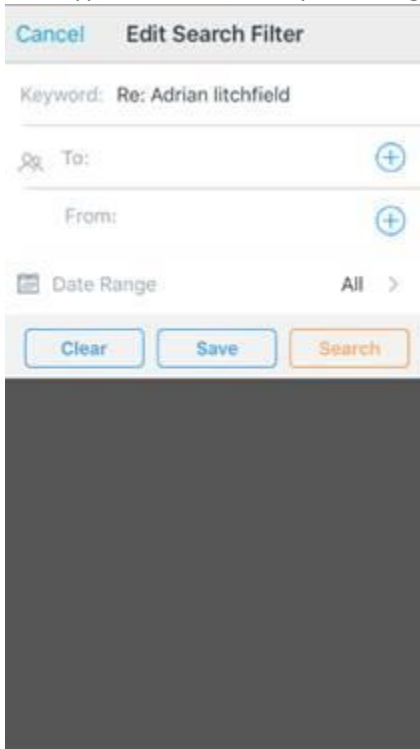

The screenshot shows a mobile application interface for 'Archive Search'. At the top, there is a header with a blue logo and the text 'Archive Search'. Below the header are four input fields: 'Email' with the value 'akaufman@freestateelectric.com', 'Password' with ten black dots, 'Host' with the value 'bma.freestateelectric.com', and 'Port' with the value '443'. Below these fields is a 'Remember Me' toggle switch, which is currently turned off. At the bottom of the form is a large blue button labeled 'Login'. Below the button is a light gray area, and at the very bottom is a footer with the text 'Demo Account' in blue.

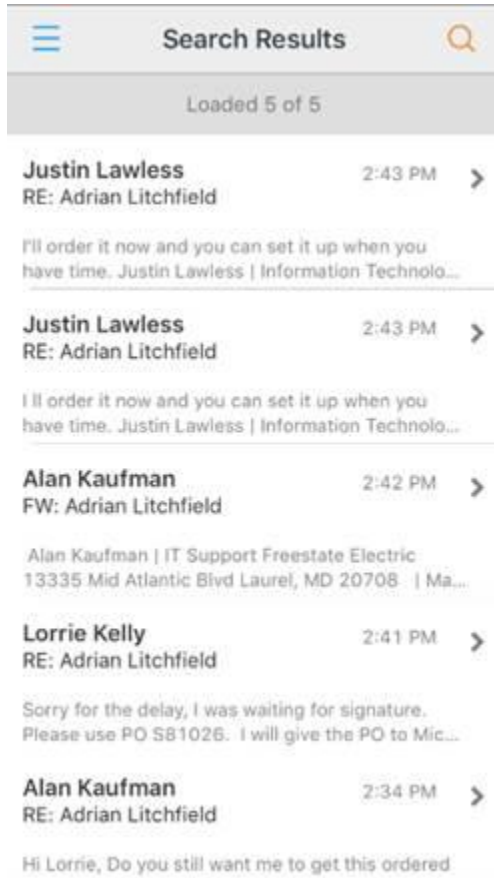

5. To search for emails that have been archived tap the orange magnifying glass icon

6. The type in information pertaining to the email you are looking for.

7. You should then see emails with the info you typed in.

8. Tap on an email to read it. To Reply, Forward, Resend or Pring tap the blue arrow at the top right
