SIGN IN

Once you have successfully signed in you can then use the Archiver Search to view all the emails that you have ever sent or received while with the company.

You can search by keyword, the to and from fields, and you can set a date range for the search

You can use the history button to see all past searches you have made as well as any emails you have marked as a favorite.

If you tap the settings wheel in the top left-hand corner, then tap Authentication you can enable the Remember Me option, so you do not need to sign in every time

After selecting a message from your search, you can save it as a favorite in the Message Archiver App by tapping the Star. You can also hit the arrow in the top right-hand corner and choose the **Reply, Reply All, Forward, and Resend to Me** options. Choosing Reply, Reply All, or Forward will open the mail app on your iPhone or iPad. The resent message will include the attachment
